ELSEVIER

Contents of Volume 19

Number 1

1 Finite Element Analysis of Centrifuge Tests on Reinforced Embankments on Soft Clay
J. S. SHARMA & M. D. BOLTON (UK)

23 Modelling of Interface Problems by the Finite Element Method with Considerable Displacements
P. VILLARD (France)

47 Wave-induced Uplift Force Acting on a Submarine Buried Pipeline: Finite Element Formulation and Verification of Computations
W. MAGDA (Poland)

I Calendar of Events

Number 2

75 Multi-Region Boundary Element Analysis of Unconfined Seepage Problems in Excavations
CHIH-PING WU, CHIH-HSIEN LIN & YAW-JENG CHIOU (ROC)

97 A Simplified Procedure for Torsional Impedance Functions of Embedded Foundations in a Soil Layer
J. AVILÉS & L. E. PÉREZ-ROCHA (Mexico)

117 Analysis of the Transient Response of Vertically Loaded Single Piles by Time-domain BEM
L. G. THAM, C. K. CHU (Hong Kong) & Z. X. LEI (Japan)

137 Infinite Boundary Elements for the Analysis of Halfspace Problems
T. G. DAVIES & S. BU (UK)

153 Identifying Soil Parameters by Means of Laboratory and *in situ* Testing
P. Y. HICHER & A. MICHALI (France)

I Calendar of Events

Number 3

171 A New Versatile Expression for Yield and Plastic Potential Surfaces
R. LAGIOIA (Italy), A. M. PUZRIN & D. M. POTTS (UK)

193 Wall Displacement Modes Dependent Active Earth Pressure Analyses Using Smeared Shear Band Method with Two Bands
H. HAZARIKA & H. MATSUZAWA (Japan)

221 Numerical Simulation of Shear Band Formation with a Polar Hypoplastic Constitutive Model
J. TEJCHMAN (Germany) & E. BAUER (Austria)

245 Influence of Viscous Damping in the Dynamic Analysis of an Earth Dam Using Simple Constitutive Models
P. K. WOODWARD (UK) & D. V. GRIFFITHS (USA)

I Calendar of Events

Number 4

265 Torsional Piles in Non-homogeneous Media
W. D. GUO & M. F. RANDOLPH (Australia)

289 Degradation Model for One-way Cyclic Lateral Load on Piles in Soft Clay
S. S. RAJASHREE & R. SUNDARAVADIVELU (India)

301 3-D Finite Element Modelling of Pile Groups Adjacent to Surcharge Loads
M. F. BRANSBY & S. M. SPRINGMAN (UK)

325 Calibration of a Constitutive Model Using Genetic Algorithms
S. PAL, G. W. WATHUGALA & S. KUNDU (USA)

I Calendar of Events

III Contents of Volume
